# Set mode description

You can use the Set mode to set infrequently changed values or function settings.

TIP: The Set mode is constructed in a tree structure. You may go to the next tree level, or go back a level, depending on the selected item.

◇ Entering the Set mode

1. Push **MENU**.
   • Opens the MENU screen.

MENU

2. Touch [SET].
   • Opens the SET screen.

3. Rotate **MULTI** to select the desired item.
   ⓘYou can also select the item by touching [▲] or [▼] in the screen.

Rotate

4. Push **MULTI** to go to the next tree level.
   ⓘYou can also go to the next tree level by directly touching the desired item in the screen.

5. Repeat steps 3 and 4 to open the desired item's setting screen.
   ⓘTo go back the previous tree level, push **EXIT**.

6. Rotate **MULTI** to select the desired option, and then push **MULTI** to set it.

   ⓘ**Information**
   • You can also select the option by directly touching the option or [▲] or [▼] in the screen.
   • When you continuously set other items in the same tree level, repeat step 6.
   • When you continuously set other item in the different tree level, push **EXIT** to go back the previous tree level.

TIP: How to reset to the default setting
Touching the item or its option for 1 second displays the Quick menu, and then touch "Default" to reset to the default setting.

ⓘTo close the Quick menu, push **EXIT**.

---

7. To close the SET screen, push **EXIT** several times.
